● Developed a personal portfolio site using HTML, CSS, and JavaScript.
● Implemented responsive design principles to ensure compatibility across devices.

**TO-Do List App**
● Created a dynamic to-do list application using React.
● Utilized local storage to save user tasks and implemented a clean UI for easy navigation.

**restaurant (crispy page)website**
● Built a restaurant website using HTML, CSS, and JavaScript that fetches data from a public API.

## TIPS FOR CUSTOMIZATION

1- Tailor the Objective: Customize the objective to match the job description.
2- Highlight Projects: Focus on projects that demonstrate relevant skills and technologies.
3- Include Keywords: Use keywords from the job posting to help your CV pass through applicant tracking systems.
4- Keep it Concise: Aim for one page, especially as a junior developer.
5- Proofread: Ensure there are no typos or grammatical errors.
